

## DRYING IRONERS

MCA 150 180 210 Ø 33

 **imesa**

# MCA SERIES

## COMPACT DIMENSIONS FOR BIG RESULTS!

Available with three different roller lengths, IMESA 33 cm diameter drying ironers are the ideal solution for restaurants, pizzerias, and small/medium hotels.

Thanks to its compact dimensions and the possibility to be installed against a wall, the MCA drying ironer needs less space yet still assures the necessary productivity to meet the customer requirements.

Studied to last: a reliable structure and high quality components! We are proud of our product reliability in which we trust so much to grant the best warranty condition: **24 MONTHS TOTAL WARRANTY!**

## High customer satisfaction!

IMESA drying ironer was designed to meet customer satisfaction.

The usual black stains left by the sliding of the temperature probe on the roller is a problem that only IMESA customers can forget thanks to a special protection applied on the temperature probe plate.

MCA compact dimensions allow a big saving in manpower, energy, space and time! The linen coming out from a washer extractor can be dried and ironed with one simple operation, without the need of a tumble dryer. The laundry global costs are reduced while achieving high quality results.

Due to the technology applied on this machine, the user and the service man can work on the MCA drying ironer without any risk.

## WORKING WITH MAXIMUM SAFETY

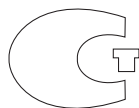

The **TWO EMERGENCY STOP BUTTONS**, one on each side, can be easily reached if needed to immediately stop the ironer.

The **HAND SAFETY BAR** protects the user for any accidental pulling of an art inside the ironer. When the bar is pressed, the ironer stopped. On IMESA drying ironers all moving parts cannot be reached during the ironing cycle. The user can count on total protection and can work without worries.

All gas heated drying ironers are certified in compliance with the European Rules.

**GOST CERTIFICATE:**  
IMESA drying ironers are respecting the Russian Federation manufacturing standards.

## High productivity at less cost!

### SAVE IN ENERGY AND MAINTENANCE

The Cooldown function can be activated from the keypad. Near the end of the ironing shift, the user need only to press the apposite key. The heating system stops but the ironer continues to work. When the temperature goes below 80°C the drying ironer shuts off.

This function brings two important advantages:  
The wear and tear of the ironing belts is reduced;  
The thermal energy accumulated by the machine is not wasted.

The microprocessor allows to easily manage :

- Start / Stop of the drying ironer;
- Electronic regulation of the ironing temperature;
- Electronic regulation of the ironing speed in mt/min;

### AUTOMATIC SPEED / TEMPERATURE COMPENSATION

The Imesa MCA drying ironer automatically chooses the most suitable ironing speed in conjunction with the temperature. When wet linen is introduced decreasing the roller temperature, the MCM proportionally decreases the ironing speed to assure the final result quality.

### EASY MAINTENANCE

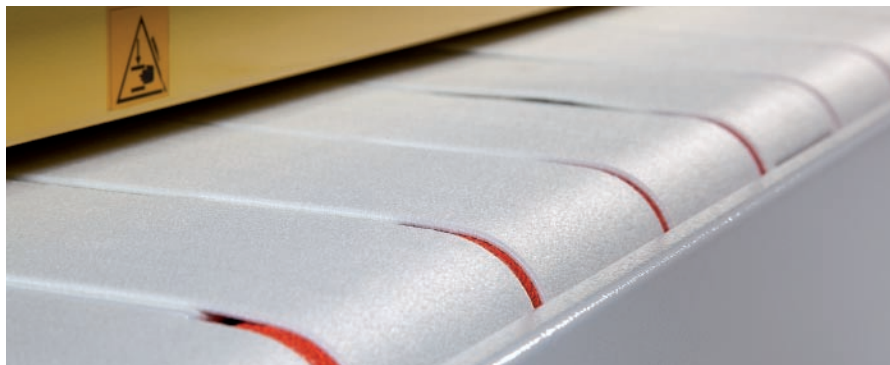

Any error signalled during the ironer operations are displayed and stored in the microprocessor memory. This information can be easily retrieved by the technician during the service operation in order to assist in finding the correct diagnosis and solution.

### SAVE YOUR OWN IRONING PROGRAMS!

Each fabric needs its appropriate ironing speed/temperature mix. Once the optimal combination is found, it is possible to memorize and to name the program. When the user will again iron the same fabric he needs only to choose the correct program.

# IMESA:

ADDING VALUE  
TO YOUR JOB!

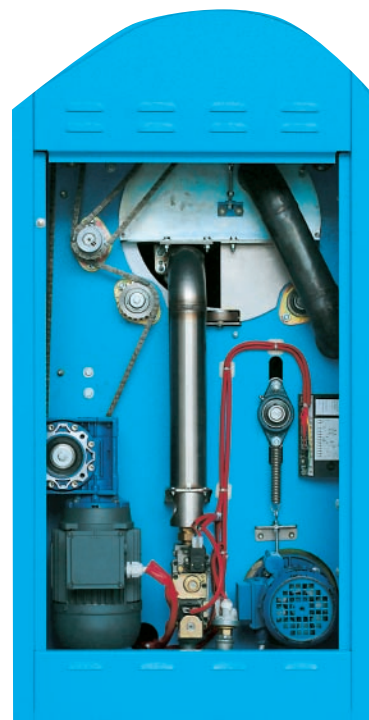

**NOMEX BELTS**

Ironing and introducing belts are in NOMEX, a special fabric which is high temperature resistant. IMESA ironer is made to last!

**SPEED ELECTRONIC CONTROL:** Thanks to the inverter, which is standard on all IMESA drying ironers, the ironing speed can be electronically controlled. IMESA assures the highest productivity in function of ironing temperature and linen moisture.

**SERVICE IS EASIER:** Thanks to the side panels which protect the moving parts, the machine is absolutely safe. When service is needed the technician removes these panels for easy access for maintenance.

**AIR INLET FILTER:** IMESA drying ironers are equipped with an efficient suction system. The filters applied to the air inlets make sure that linen fluff is not going in the laundry room and, at the same time, protect the fans and the motor from external objects that could damage them.

The MCA series was carefully designed, paying attention to each detail in order to make the ironing work easier and safe and to assure high quality results.

Due to the flexibility of the Microprocessor, the MCA can satisfy both the professional laundry and the small hotel or restaurant requests.

The possibility to dialog in different languages makes easy for everybody to use the ironer, wherever it is installed.

**MCA SEIRES:  
PROFESSIONALISM  
WITH SIMPLICITY**

**BIG COLLECTING TABLES**

To make it easier to introduce and to collect the linen, IMESA drying ironers are equipped with two big tables which prevent large linens from touching the ground.

**PEDAL**

With the optional remote pedal the user can correct an improperly introduced linen. When pressed the roller rotation is reversed allowing for the extraction of the linen.

## IMESA: A LIFE BY YOUR SIDE

**Imesa** is a leading company in the production of laundry equipment. We achieved this goal thanks to more than 40 years of total commitment to the continuing challenges to satisfy the growing technological expectation of human beings and meetings changes in lifestyle.

**Innovation, quality, safety, versatility, service and reliability:** IMESA success is based on this six concepts. Innovation in technology and proposal. Quality guaranteed by an UNI EN ISO 9001 certified production system. Safety of products certified by qualified operational organisation in various part of the world. Versatility and flexibility which allows many possibilities of customisation. Reliability thanks to the solid product structure.

**Customer satisfaction is IMESA main achievement.** Thanks to an international and professional net of distributor and to a well trained service net, IMESA can assure a global service in Italy, in Europe and in all the world.

**During the offer step,** IMESA distributor offers a complete support in the correct equipment choice and complete the job with a financial analysis of the investment as well as with the project.

IMESA can deliver in a very short time thanks to **equipment stock** in many countries: Italy, Spain, French, Portugal, Algeria, Hungary, ...

The wide **service** net can assure a quick **technical assistance** in case of necessity and the **spare parts can be easily purchased** in IMESA official website.
